We need to prepare and think carefully how to transform this into an opportunity for Power. I will talk to my friends at Meebo and also see the best response.

Eric, we need to be prepared for Facebook to try to block us and the turn this into a national battle that gets us huge attention. But before we do that, we need to be prepared to address their arguments.

We need to address the scraping argument and the soliciting login credentials. Soliciting login credentials should be something with A LOT of precedent. Everybody has been soliciting login credentials for years. Scraping is also something we should be able to address.

Let's discuss this. This is exciting. :)

Keep this letter confidential.

Thanks.  
Steve
